Prepare for the Unexpected

Being prepared for the unexpected in life can make all the difference for your family's financial well-being. You probably carry home, car, life and health insurance for that very reason. But what if you suffered a major health condition such as a heart attack, cancer or stroke? Could you cover your financial obligations if you were out of work or incurred medical costs not covered by your health insurance?

Critical Illness Plus insurance, an individual limited benefit health insurance policy, can help fill the financial gaps not covered by traditional health, disability and life insurance if a critical illness or specified disease is diagnosed. Critical Illness Plus is issued by The Western and Southern Life Insurance Company (Western & Southern Life), Cincinnati, OH, and National Integrity Life Insurance Company, Greenwich, NY.

It pays a lump sum benefit upon diagnosis of certain critical health events. That’s money you can use to help with the following expenses:

› Replacing lost income
› Health insurance co-pays, deductibles and out-of-network costs
› Travel and lodging expenses while receiving treatment
› Household expenses, childcare and other financial obligations
› Rehabilitation expenses

Having an additional financial resource can help you concentrate on what’s most important — getting well.
