## Accelerated Death Benefit Rider<sup>1</sup>

Provides an advance of a portion of the death benefit if the insured is diagnosed with terminal illness (less than 12-month life expectancy) or becomes chronically ill. The terminal illness maximum benefit is 60-90% of the death benefit, based on age, gender and tobacco status. The chronic illness maximum benefit is 100% of premium paid less partial withdrawals. The rider can help provide security and access to funds at a difficult time.

## Confinement Waiver

The surrender charge is waived if the insured is confined to a long-term care facility or hospital for at least 30 days at the time of a partial or full surrender.

## Access and Control

Access to a portion of the policy value is available through policy loans and partial surrenders should a financial need arise:<sup>2</sup>

- **Partial surrenders** cannot be paid back. Minimum partial surrender is \$500.
- **Policy loans** are available any time there is sufficient loan value available. Maximum loan rates apply. The rate credited to the loan portion of the accumulation value is 2.00%. Outstanding debt may be repaid at any time while the insured is still living. A policy may lapse if the amount of loans plus interest exceed the cash value. The return of premium guarantee is terminated if a policy loan is taken.

Policies underwritten by Western-Southern Life Assurance Company, Cincinnati, OH, operating in DC and all states except NY, where National Integrity Life Insurance Company, Greenwich, NY operates. W&S Financial Group Distributors, Inc. is an affiliated agency of the issuer. Issuer has sole financial responsibility for its products. All are members of Western & Southern Financial Group. Payment of benefits under a life insurance policy is the obligation of, and is guaranteed by, the insurance company issuing the policy. Guarantees are based on the claims paying ability of the insurer.

Policy benefits in some cases are mutually exclusive. Loans, withdrawals and advances will reduce the Death Benefit and Cash Surrender Value and may cause the policy to lapse. The lapse or surrender of a policy with an outstanding loan may result in taxable income. Keep in mind, cash value may take years to accumulate, unless a large single premium is paid.

Living benefits are accessed through an advance of the policy's death benefit, provided the insured meets eligibility requirements under the applicable rider. An advance is treated as a lien secured by the Death Benefit of the policy and will reduce the Death Benefit payable if not repaid. The advance will accrue interest each year. The rate of interest will depend on the cash value of your policy and may vary. The lien may be increased if necessary to keep your policy in effect. This rider is added at no additional premium; however, we may charge a fee of up to \$250.00 for an advance payment. The accelerated death benefit will terminate with the policy.

Life insurance proceeds paid in the form of an accelerated death benefit when the insured has become chronically or terminally ill, and is otherwise eligible for benefits, are intended to receive favorable tax treatment under Section 101(g) of the Internal Revenue Code (26 U.S.C. Sec. 101(g)). There may be tax consequences in some situations in accepting an accelerated benefit payment amount, such as where total payments exceed the per diem limitation under the Internal Revenue Code (Chronic Illness only). In NY, the maximum payout amount allowed in a calendar year is equal to the per diem limitation amount. Receipt of Accelerated Benefit payments may adversely affect the recipient's eligibility for Medicaid or other government benefits or entitlements. They may also be considered taxable by the Internal Revenue Service. Consult your tax advisor before taking an advance.

An accelerated death benefit is not to be sold as or to replace long-term care insurance, nursing home insurance, or home care insurance. An accelerated death benefit (such as the Accelerated Death Benefit Plus Rider) and long-term care insurance provide very different kinds of benefits.

Payment of Accelerated Death Benefits, if not repaid, will reduce the Death Benefit and affect the available loan amount and other policy values.

Policy and premium charges will be deducted as described in the policy. The policy may be issued as a Modified Endowment Contract (MEC) for tax purposes. Any withdrawals or surrenders could result in a taxable event. Distributions are taxable to the extent that there is gain in the contract. A 10% penalty applies for distributions prior to age 59½ with certain exceptions. In order for policies funded by an exchange to be issued as a non-MEC, the entire single premium must be in the form of a 1035 Exchange and the existing policy must not be a MEC.
