A LONG-TERM PARTNER TO ENDOWMENTS & FOUNDATIONS

Endowments, foundations, and other nonprofit organizations face the ongoing challenge of supporting current spending needs while preserving and growing assets for the future. For more than 35 years, Fort Washington has partnered with mission-driven organizations to help navigate this balance. We recognize that each organization brings a distinct mission, financial objectives, risk tolerance, liquidity needs, spending requirements, and investment guidelines. By understanding these priorities and the responsibilities that shape them, we develop investment approaches tailored to each client's unique circumstances and long-term goals.

Our investment professionals work closely with boards and investment committees to establish appropriate policies and guidelines and develop portfolios aligned with each organization's objectives and constraints. Our comprehensive capabilities include investment policy development, asset allocation, manager due diligence, portfolio management, performance measurement and monitoring, and regular portfolio reviews. Through disciplined investment and risk management, we provide ongoing guidance designed to help organizations meet current operational needs, preserve capital, and position portfolios for potential long-term growth.
