Inception Date: 01/01/2006 Total Assets: \$1.5 billion

Objective: 100 bps annualized excess return over benchmark

Benchmark: Bloomberg US Aggregate Intermediate Bond

Index

VEHICLE AVAILABILITY

Separate Account

STRATEGY OVERVIEW

- Sector rotating strategy that allocates risk on a relative value basis
- Supported by team of more than 30 investment professionals
- ▶ 15+ year track record

PHILOSOPHY

We believe:

- In explicit measurement of valuation and risk, not forecasting
- Allocations of risk on a relative value basis with a focus on managing downside exposure will lead to strong long-term results
- Active monitoring of risk targets versus budgets
- Bottom-up security selection is driven by fundamental analysis

ABOUT FORT WASHINGTON

- Founded in 1990; \$90.5 billion in current total assets under management¹
- Organizational hallmarks include: stability of teams, consistency of process, competitive performance, deep resources, and alignment of interests

Composite inception date: 01/01/2006. Composite creation date: 01/01/2018. The 3-Year annualized ex-post standard deviation is calculated using monthly gross-of-fee returns to measure the average deviations of returns from its mean. Poispersion is not calculated for years in which the composite contains five portfolios or less. Dispersion is calculated as the equal weighted standard deviation of quarterly gross-of-fee returns for frohse portfolios held in the composite during the full measurement period. Past performance is not indicative of future results. The benchmark for this composite is the Bloomberg US Aggregate Intermediate Bond Index measures the performance of the investment grade, fixed-rate taxable bond market and includes government and corporate bonds, agency mortgage-backed, asset-backed securities, and commercial mortgage-backed securities (agency and non-agency) with a maturity greater than 1 year and less than 10 years. The index accounts for interest payments by incorporating them into the total return calculation. Fort Washington constructs portfolios within a disciplined sector rotation and target duration framework, focusing on long-term results, utilizing a mix of fixed income securities. Fort Washington constructs portfolios that are diversified by sector, holdings, and quality which we believe will produce favorable risk-adjusted returns. The Intermediate Fixed Income Composite includes all fixed income accounts above \$55 million managed to the maturity constraints consistent to that of an intermediate duration focused index, with the ability to invest in Investment Grade Securities which allow for between 10%-30% allocations to High Yield and/or are restricted to invest in less than 5% in Emerging Market Securities, Non-U.S. Dollar denominated securities, and/or any derivative investments. The strategy's fee schedule is 0.35% on the first \$25 million and 0.30% on additional amounts over \$25 million for separate accounts. Portfolios in this composite include ash, cash equivalents, inves

RISK DISCLOSURE

The Fort Washington Intermediate Fixed Income strategy invests in fixed-income securities which can experience reduced liquidity during certain market events, lose their value as interest rates rise and are subject to credit risk which is the risk of deterioration in the financial condition of an issuer and/or general economic conditions that can cause the issuer to not make timely payments of principal and interest also causing the securities to decline in value and an investor can lose principal. Events in the U.S. and global financial markets, including actions taken to stimulate or stabilize economic growth may at times result in unusually high market volatility, which could negatively impact strategy performance and cause it to experience illiquidity, shareholder redemptions, or other potentially adverse effects. Banks and financial services companies could suffer losses if interest rates rise or economic conditions deteriorate.
