

FORT WASHINGTON LARGE CAP FOCUSED EQUITY – 2Q19

GENERAL INFORMATION

Inception Date: 10/01/2013
Total Assets: \$2.3 billion
Style: Large Cap Equity
Benchmark: S&P 500

STRATEGY OVERVIEW

- ▶ Unique investment approach that directly links valuation with barriers to entry
- ▶ Flexibility to shift portfolio through market cycle
- ▶ Take advantage of irrational human behavior and identify companies mispriced by the market
- ▶ High conviction strategy promotes alpha generation

PHILOSOPHY

Three aspects we believe generate competitive investment returns:

1. Pay as little as possible for future value creation
2. Invest in businesses capable of generating excess returns on capital
3. Invest in businesses with higher barriers to entry

Composite inception and creation date: 10/01/13. ⁵2013 returns are partial-year returns, reflecting the composite inception date of 10/01/13. ⁶The 3-Year annualized ex-post standard deviation is calculated using monthly returns to measure the average deviations of returns from its mean. ⁷Dispersion is not calculated for years in which the composite contains five portfolios or less. Dispersion is calculated as the equal weighted standard deviation of returns for those portfolios held in the composite during the entire period. The benchmark for this composite is the Standard and Poor's 500 Index. The Fort Washington Large Cap Focused Equity strategy is a large-cap concentrated, value oriented strategy that invests in businesses with a market capitalization greater than \$5 billion. The strategy invests in businesses with strong barriers to entry that have the capability of generating excess returns on capital. The strategy looks to take advantage of irrational human behavior by buying large cap securities that have been mispriced by the market. We will invest in companies that have limited absolute downside and large margin of safety on the upside. The objective of the Large Cap Focused Equity strategy is to outperform the S&P 500 Index over a full market cycle. All fee-paying, fully discretionary portfolios managed in the Large Cap style, with a minimum of \$1 million under our management, are included in this composite. Effective 01/22/14, the Large Cap strategy fee schedule is as follows: 0.65% on the first \$25 million, 0.60% on the next \$25 million, 0.55% on the next \$50 million and over. The benchmark for this composite is the Standard and Poor's 500 Index. Portfolios in this composite include cash, cash equivalents, investment securities, interest and dividends. Cash is maintained, within each separately managed account segment, in accordance with our asset allocation ratio. The U.S. dollar is the base currency. The specific securities identified and described do not represent all of the securities purchased, sold, or recommended. Returns are presented gross and net of management fees and include the reinvestment of all income. Gross returns will be reduced by investment advisory fees and other expenses that may be incurred in the management of the account. Net of fee performance was calculated using the actual management fees charged. Individual portfolio returns are calculated on a daily valuation basis. Past performance is not indicative of future results. Fort Washington Investment Advisors, Inc. (Fort Washington), a wholly owned subsidiary of The Western and Southern Life Insurance Company, is a registered investment advisor and provides discretionary money management to a broad range of investors, including both institutional and individual investors. Assets under management include all portfolios managed by Fort Washington and exclude assets under management by and marketed as its Private Equity business unit. Fort Washington claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS Standards. Fort Washington has been independently verified for the periods 7/1/94 - 12/31/17. A copy of the verification reports are available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.
