Performance data quoted represents past performance, which is no guarantee of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than performance data given. **For performance information current to the most recent month-end, visit TouchstoneInvestments.com/pricing-performance.** From time to time, the investment advisor may waive some fees and/or reimburse expenses, which if not waived or reimbursed, will lower performance. Performance by share class will differ due to differences in sales charges and class expenses. Calendar year returns of the Fund and the Benchmark do not include the effects of the applicable sales charge which would lower returns. Returns assume reinvestment of all distributions. Returns are not annualized for periods less than one year.

Yield - Class A Shares (As of 09/30/18)

	Touchstone Ohio Tax-Free Bond Fund
30-Day SEC Yield	2.88%
30-Day Unsubsidized [†] SEC Yield	2.59%

[†]Unsubsidized is calculated without expense waivers. **The 30-Day SEC Yield** is calculated by dividing the net investment income per share (as defined by industry regulations) earned by a fund over a 30-day period by the maximum public offering price. This number is then annualized. **The 30-Day SEC Yield** reflects the rate at which a fund is earning income on its current portfolio of securities and does not necessarily reflect income actually earned and distributed by a fund and, therefore, may not be correlated with a fund's past distributions actually paid to shareholders.

Morningstar Ratings (As of 09/30/18)

The Morningstar Rating[™] for funds, or "star rating," is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds and separate accounts) with at least a 3-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive five stars, the next 22.5% receive four stars, the next 35% receive three stars, the next 22.5% receive two stars, and the bottom 10% receive one star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its 3-, 5- and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% 3-year rating for 36-59 months of total returns, 60% 5-year rating/40% 3-year rating for 60-119 months of total returns, and 50% 10-year rating/30% 5-year rating/20% 3-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent 3-year period actually has the greatest impact because it is included in all three rating periods.

Class A Shares star ratings do not include any front-end sales load and are intended for those investors who have access to such purchase terms.

**The performance presented for Class C, Y, and INST Shares combines the performance of an older class of shares (A Shares) from the Fund's inception, 04/01/85, with the performance since the inception date of each share class.

Objective

The Fund seeks the highest level of interest income exempt from federal income and Ohio personal income taxes, consistent with the protection of capital by investing primarily in high-quality, long-term Ohio municipal obligations.

Investment Style

- Reviews various economic reports, yield-curve analysis and other market indicators in an effort to identify trends and relative value in the marketplace
- Conducts macroeconomic analysis and yield-curve analysis in an effort to gain insight into the current trends and future expectations
- Assesses municipal market variables - including supply and demand, cash flows, yield spreads and credit spreads - in an effort to identify which sectors represent the most potential value

A Word About Risk

The Fund invests in debt securities which can lose their value as interest rates rise and are subject to credit risk which is the risk of deterioration in the financial condition of an issuer and/or general economic conditions that can cause the issuer to not make timely payments of principal and interest also causing the securities to decline in value and an investor can lose principal. When interest rates rise, the price of debt securities generally falls. Longer term securities are generally more volatile. The Fund is subject to prepayment risk which is when a debt security may be paid off and proceeds invested earlier than anticipated. The Fund invests in investment grade debt securities which may be downgraded by a Nationally Recognized Statistical Rating Organization (NRSRO) to below investment grade status. The Fund invests in municipal securities which may be affected by uncertainties in the municipal market related to legislation or litigation involving the taxation of municipal securities or the rights of municipal security holders in the event of bankruptcy and may not be able to meet their obligations. Political and economic conditions in the State of Ohio may impact the value of Ohio municipal obligations which may lose value due to decreased economic growth, increased unemployment and decreased tax revenue. The Fund may focus its investments in the securities of a particular bond market sector which will have a greater impact on the Fund than a fund that does not focus its investments. The Fund is non-diversified, which means that it may invest a greater percentage of its assets in the securities of a limited number of issuers and may be subject to greater risks. Current and future portfolio holdings are subject to risk. The advisor engages the sub-advisor to manage the Fund's portfolio; the sub-advisor's judgment may impact the Fund's performance.
