NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Western-Southern Life Assurance Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (the Department).

The Department recognizes only statutory accounting practices prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Ohio. The Department has the right to permit other specific practices that deviate from prescribed practices. There are no differences between the Company's net income and capital and surplus following NAIC SAP or practices prescribed and permitted by the state of Ohio.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

No Change.

C. Accounting Policy

- (2) The Company has not reacquired any SVO Identified Bonds during the reporting period.
- (6) Loan-backed and structured securities are stated at amortized cost, except those with an initial NAIC designation of 6, which are stated at the lower of amortized cost or fair value. Loan-backed and structured securities with an initial NAIC designation of 6 could have a final designation of 1 through 5 as determined by the SVO financial modeling process. The retrospective adjustment method is used to determine amortized cost for all loan-backed and structured securities, except for those which an other-than-temporary impairment has been recognized, which use the prospective adjustment method to determine amortized cost.

D. Going Concern. Management has not raised any doubts about the entity's ability to continue as a going concern.

2. Accounting Changes and Correction of Errors

The Company did not have any accounting changes in 2022.

3. Business Combinations and Goodwill. No Change.

4. Discontinued Operations. No Change.

5. Investments

A. Mortgage Loans, including Mezzanine Real Estate Loans. No Change.

B. Debt Restructuring. None.

C. Reverse Mortgages. None.

STATEMENT AS OF SEPTEMBER 30, 2022 OF THE Western-Southern Life Assurance Company

D. Loan-Backed Securities

- (1) Prepayment assumptions are derived from Bloomberg and broker dealer prepayment models or from empirical data.
- (2) The Company had no other-than-temporary impairments on loan-backed and structured securities for the period ended September 30, 2022, due to the intent to sell the security or the inability or lack of intent to retain the investment in the security for a period of time sufficient to recover the amortized cost basis of the security.
- (3) The following is a list of each loan-backed and structured security with a recognized other-than-temporary impairment, for the period ended September 30, 2022, where the present value of future cash flows expected to be collected is less than the amortized cost basis of the securities:

Total	XXX	XXX	133,374	XXX	XXX	XXX

- (4) The following is an aggregate total of all impaired loan-backed securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss, including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains as of September 30, 2022:

a. The aggregate amount of unrealized losses:

1. Less than 12 Months573,892,191

2. 12 Months or Longer87,504,245

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months6,834,150,380

2. 12 Months or Longer643,294,053
- (5) The Company monitors investments to determine if there has been an other-than temporary decline in fair value. Factors management considers for each identified security include the following:

a. the length of time and the extent to which the fair value is below the book/adjusted carry value;

b. the financial condition and near term prospects of the issuer, including specific events that may affect its operations;

c. for equity securities and debt securities with credit related declines in fair value, the Company's intent and ability to hold the security long enough for it to recover its value to book/adjusted carry value;

d. for debt securities with interest related declines in fair value, the Company's intent to sell the security before recovery of its book/adjusted carry value;

e. for loan-backed securities, the Company's intent and ability to hold the security long enough for it to recover its value to book/adjusted carry value;

f. for loan-backed securities, the Company's intent to sell the security before recovery of its book/adjusted carry value.

If the decline is judged to be other-than-temporary, an impairment charge is recorded as a net realized capital loss in the period the determination is made.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions

- (3) Collateral Received

b. The fair value of that collateral and of the portion of that collateral that it has sold or repledged is \$495.6 million.

- (2) Not applicable.
- (3) The Company’s policy is to recognize transfers in and transfers out of levels at the beginning of each quarterly reporting period.
- (4) Investments in Level 2 include industrial and miscellaneous bonds, foreign government bonds and below investment grade residential mortgage-backed securities initially rated NAIC 6. These securities represent both senior and subordinated tranches in securitization trusts containing residential mortgage loans originated during the period of 2005 to 2007. The Company determined fair value as of the balance sheet date through the use of third-party pricing services utilizing market observable inputs.

The fair value of preferred stock included in Level 2 has been determined by utilizing market observable inputs from third-party pricing services.

Derivative investments included in Level 2 consist of interest rate swaps. The fair values of these securities have been determined through the use of third-party pricing services or models utilizing market observable inputs.

Assets held in Level 2 of the separate accounts carried at fair value include investment grade municipal, corporate bonds, and surplus notes. The Company determined fair value of the bonds through the use of third-party pricing services utilizing market observable inputs.

The following discussion describes the valuation methodologies utilized by the Company for assets and liabilities measured or disclosed at fair value. Fair value estimates are made at a specific point in time, based on available market information and judgments about the financial instrument, including discount rates, estimates of timing, amount of expected future cash flows and the credit standing of the issuer. Such estimates do not consider the tax impact of the realization of unrealized gains or losses. For Level 3 investments, the fair value estimates cannot be substantiated by comparison to independent markets. In addition, the disclosed fair value may not be realized in the immediate settlement of the financial instrument. As described below, certain fair values are determined through the use of third-party pricing services. Management does not adjust prices received from third-parties; however, we do analyze the third-party pricing services’ valuation methodologies and related inputs and perform additional evaluation to determine the appropriate level within the fair value hierarchy. Care should be exercised in deriving conclusions about the Company’s business, its value or financial position based on the fair value information of financial instruments presented below.

Debt Securities, Surplus Notes, and Equity Securities

The fair values of actively traded debt securities, asset/mortgage-backed securities, and surplus notes have been determined through the use of third-party pricing services utilizing market observable inputs. Less liquid private placement securities trading in less liquid or illiquid markets with limited or no pricing information are valued using either broker quotes or by discounting the expected cash flows using current market-consistent rates applicable to the yield, credit quality and maturity of each security.

The fair values of actively traded equity securities and exchange traded funds (including exchange traded funds with debt like characteristics) have been determined utilizing publicly quoted prices obtained from third-party pricing services. The fair values of certain equity securities for which no publicly quoted prices are available have been determined through the use of third-party pricing services utilizing market observable inputs. Actively traded mutual funds are valued using the net asset values of the funds. The fair value of preferred stock included in Level 3 has been determined by either broker quotes or by discounting the expected cash flows using current market-consistent rates applicable to the yield.

Mortgage Loans

The fair values for mortgage loans, consisting principally of commercial real estate loans, are estimated using discounted cash flow analyses, using interest rates currently being offered for similar loans collateralized by properties with similar investment risk. The fair values for mortgage loans in default are established at the lower of the fair value of the underlying collateral less costs to sell or the carrying amount of the loan.

Derivative Instruments

The fair value of the interest rate swaps have been determined through the use of third-party pricing services utilizing market observable inputs.

Cash, Cash Equivalents and Short-Term Investments

The fair values of cash, cash equivalents and short-term investments are based on quoted market prices.

Securities Lending Reinvested Collateral Assets

The fair value of securities lending reinvested collateral assets are from third-party sources utilizing publicly quoted prices.

Assets Held in Separate Accounts

Assets held in separate accounts include debt securities and mutual funds. The fair values of these assets have been determined using the same methodologies as similar assets held in the general account.

Life and Annuity Reserves for Investment-type Contracts and Deposit Fund Liabilities

The fair value of liabilities for investment-type contracts is based on the present value of estimated liability cash flows. Present values reflect the Company’s margin for uncertainty of the timing of liability cash flows. Key assumptions to the cash flow model include the timing of policyholder withdrawals and the level of interest credited to contract balances.

Fair values for insurance reserves are not required to be disclosed. However, the estimated fair values of all insurance reserves and investment contracts are taken into consideration in the Company’s overall management of interest rate risk.

Securities Lending Liability

The liability represents the Company’s obligation to return collateral related to securities lending transactions. The liability is short-term in nature and therefore, the fair value of the obligation approximates the carrying amount.

Cash Collateral Payable

The payable represents the obligation to return cash collateral the Company has received relating to derivative instruments. The fair value is based upon the stated amount.

Separate Account Liabilities

Certain separate account liabilities are classified as investment contracts and are carried at an amount equal to the related separate account assets. Carrying value is a reasonable estimate of the fair value as it represents the exit value as evidenced by withdrawal transactions between contract holders and the Company.

21. Other Items.

C. Other Disclosures

The Company is exposed to risk associated with the ongoing outbreak of coronavirus (“COVID-19”) and is actively monitoring developments through governmental briefings and the relevant health authorities. The effects of the outbreak on the Company are uncertain and difficult to predict, as the situation continues to evolve. Risks include (but are not limited to) the disruption of business operations due to changing work environments for employees, agents and distributors, and business partners; potential economic hardship of policyholders and issuers of investments held by the Company; and disruptions of product marketing and sales efforts. The Company has business continuity plans in place to mitigate the risks posed to business operations by disruptive incidents such as these..
