Report of Independent Auditors

The Board of Directors
The Western and Southern Life Insurance Company

Opinion

We have audited the statutory-basis financial statements of The Western and Southern Life Insurance Company (the Company), which comprise the balance sheets as of December 31, 2025 and 2024, and the related statements of operations, changes in capital and surplus and cash flow for each of the three years ended December 31, 2025, and the related notes to the financial statements (collectively referred to as the “financial statements”).

Unmodified Opinion on Statutory Basis of Accounting

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2025 and 2024, and the results of its operations and its cash flows for the three years ended December 31, 2025, on the basis of accounting described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter described in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of the Company at December 31, 2025 and 2024, or the results of its operations or its cash flows for the three years ended December 31, 2025.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Shape the future
with confidence**

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 to the financial statements, the Company prepared these financial statements using accounting practices prescribed or permitted by the Ohio Department of Insurance, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these statutory accounting practices described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting practices prescribed or permitted by the Ohio Department of Insurance. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

**Shape the future
with confidence**

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

1. Nature of Operations and Significant Accounting Policies

The Western and Southern Life Insurance Company (the Company) is a stock life insurance company that offers primarily individual traditional and whole life insurance policies. The Company is licensed in 46 states and the District of Columbia. For the year ended December 31, 2025, approximately 68.7% of the gross premiums and annuity considerations for the Company were derived from California, Illinois, Indiana, North Carolina, Ohio, and Pennsylvania. The Company is domiciled in Ohio. The Company is an indirect, wholly-owned subsidiary of Western & Southern Mutual Holding Company (Mutual Holding), a mutual holding company formed pursuant to the insurance regulations of the State of Ohio. Ohio law requires Mutual Holding to hold at least a majority voting interest in the Company. Currently, Mutual Holding indirectly holds 100% of the voting interest through Western & Southern Financial Group, Inc. (WSFG), its wholly-owned subsidiary. The Company wholly owns the following insurance entities: Western-Southern Life Assurance Company (WSLAC), Columbus Life Insurance Company (Columbus Life), Integrity Life Insurance Company (Integrity) and Gerber Life Insurance Company (Gerber Life). Integrity Life Insurance Company wholly owns National Integrity Life Insurance Company (National).

State regulatory authorities have powers relating to granting and revoking licenses to transact business, the licensing of agents, the regulation of premium rates and trade practices, the form and content of insurance policies, the content of advertising material, financial statements and the nature of permitted practices.

Included within the financial statements, the Company has established and operates a closed block for the benefit of holders of most participating individual ordinary and weekly industrial life insurance policies issued on or before the formation of Mutual Holding in 2000 (the Closed Block). Assets have been allocated to the Closed Block in an amount that is expected to produce cash flows which, together with anticipated revenue from the policies included in the Closed Block, are reasonably expected to be sufficient to support the Closed Block policies, the continuation of policyholder dividends, in aggregate, in accordance with the 2000 dividend scale if the experience underlying such scale continues, and for appropriate adjustments in the dividend scale if the experience changes. Invested assets allocated to the Closed Block consist primarily of high-quality debt securities, mortgage loans, policy loans, short-term investments, other invested assets, and securities lending reinvested collateral. Invested assets of \$1,758.9 million and \$1,766.7 million were allocated to the Closed Block as of December 31, 2025 and 2024, respectively. The assets allocated to the Closed Block inure solely for the benefit of the Closed Block policyholders and will not revert to the benefit of the Company. The purpose of the Closed Block is to protect the policy dividend expectations of these policies after the formation of Mutual Holding. The Closed Block will continue in effect until the last policy in the Closed Block is no longer in force.

Use of Estimates

The preparation of statutory-basis financial statements requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Basis of Presentation

The accompanying financial statements of the Company have been prepared in conformity with accounting practices prescribed or permitted by the Ohio Department of Insurance (the Department). The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP or SSAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio. These practices differ in some respects from U.S. generally accepted accounting principles (GAAP). The more significant differences follow.

Investments

Investments in debt securities and mandatory redeemable preferred stocks are reported at amortized cost or fair value based on the NAIC's rating; for GAAP, such fixed maturity investments are designated at purchase as held-to-maturity, trading or available-for-sale. Held-to-maturity fixed investments are reported at amortized cost, and the remaining fixed maturity investments are reported at fair value with unrealized holding gains and losses reported in the statement of operations for those designated as trading and as a separate component of other comprehensive income (loss) for those designated as available-for-sale.

All single-class and multiclass mortgage-backed/asset-backed securities (e.g., CMOs) are adjusted for the effects of changes in prepayment assumptions on the related accretion of discount or amortization of premium of such securities using the retrospective method. The prospective method is used to determine amortized cost for securities that experience a decline that is deemed to be other-than-temporary. Securities that are in an unrealized loss position which the Company intends to sell, or does not have the intent and ability to hold until recovery, are written down to fair value as a realized loss. Securities that are in an unrealized loss position which the Company has the intent and ability to hold until recovery are written down to the extent the present value of expected future cash flows using the security's effective yield is lower than the amortized cost. For GAAP purposes, all securities, purchased or retained, that represent beneficial interests in securitized assets (e.g., CMO, CBO, CDO, CLO, MBS and ABS securities), other than high credit quality securities, are adjusted using the prospective method when there is a change in estimated future cash flows. If it is determined that a decline in fair value is other-than-temporary, the cost basis of the security is written down to the extent the present value of expected future cash flows using the security's effective yield is lower than the amortized cost. If high credit quality securities are adjusted, the retrospective method is used.

The Company monitors other investments to determine if there has been an other-than-temporary decline in fair value. Factors that management considers for each identified security include the following:

- The extent the fair value has been below the book/adjusted carrying value;
- The reasons for the decline in value;
- Specific credit issues related to the issuer and current economic conditions, including the current and future impact of any specific events;
- For structured investments (e.g., residential mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities and other structured investments), factors such as overall deal structure and the Company's position within the structure, quality of underlying collateral, delinquencies and defaults, loss severities, recoveries, prepayments and cumulative loss projections are considered;

- For all equity securities and other debt securities with credit-related declines in fair value, the Company's intent and ability to hold the security long enough for it to recover its value to book/adjusted carrying value; and
- For all other debt securities with interest-related declines in fair value, the Company's intent to sell the security before recovery of its book/adjusted carrying value.

If the decline is judged to be other-than-temporary, an impairment charge to fair value is recorded as a net realized capital loss in the period the determination is made. Under GAAP, if the decline is judged to be other-than-temporary because the Company has the intent to sell the debt security or is more likely than not to be required to sell the debt security before its anticipated recovery, an impairment charge to fair value is recorded as a net realized capital loss. If the decline is judged to be other-than-temporary because the Company does not expect to recover the entire amortized cost basis of the security due to expected credit losses, an impairment charge is recorded to net realized capital loss as the difference between amortized cost and the net present value of expected future cash flows discounted at the effective interest rate implicit in the debt security prior to impairment.

Investments in real estate are reported net of required obligations rather than on a gross basis as for GAAP. Real estate owned and occupied by the Company is included in investments rather than reported as an operating asset as under GAAP, and investment income and operating expenses include rent for the Company's occupancy of those properties.

Other invested assets reflect investments in unaffiliated surplus debentures and joint ventures, partnerships and limited liability companies. Unaffiliated surplus debentures are reported at amortized cost. For GAAP, these assets are treated similarly as other debt securities designated as available-for-sale and are recorded at their fair value. Joint ventures, partnerships, and limited liability companies are carried at the Company's interest in the underlying audited GAAP equity of the investee. Undistributed earnings allocated to the Company are reported in the change in net unrealized capital gains or losses. Distributions from earnings of the investees are reported as net investment income when received. For GAAP, these assets are accounted for using the equity method.

Under a formula prescribed by the NAIC, the Company defers the portion of realized capital gains and losses on sales of fixed income investments, principally debt securities and mortgage loans, attributable to changes in the general level of interest rates and amortizes those deferrals over the remaining period to maturity based on groupings of individual security sold in five-year bands. The net deferral is reported as the interest maintenance reserve (IMR) in the accompanying balance sheets. Realized capital gains and losses are reported in income net of federal income tax and transfers to the IMR. Under GAAP, realized capital gains and losses are reported in the statement of operations on a pretax basis in the period that the assets giving rise to the gains or losses are sold.

The asset valuation reserve (AVR) provides a valuation allowance for invested assets. The AVR is determined by an NAIC prescribed formula with changes reflected directly in capital and surplus. AVR is not recognized for GAAP.

Subsidiaries

The accounts and operations of the Company's subsidiaries are not consolidated with the accounts and operations of the Company as would be required under GAAP.

Policy Acquisition Costs

The costs of acquiring and renewing business are expensed when incurred. Under GAAP, policy acquisition costs related to traditional life insurance, certain long-duration accident and health insurance, universal life insurance, and investment-type contracts are deferred and amortized on a constant-level basis over the expected life of the related contracts.

Nonadmitted Assets

Certain assets designated as "nonadmitted" (principally investments in unaudited subsidiaries and controlled and affiliated entities, the pension asset, and a trademark license agreement), and other assets not specifically identified as admitted assets within the NAIC's *Accounting Practices and Procedures Manual*, are excluded from the accompanying balance sheets and are charged directly to accumulated surplus. Under GAAP, such assets are included in the balance sheets.

Premiums and Benefits

Revenues for universal life and annuity policies with mortality or morbidity risk, except for guaranteed interest and group annuity contracts, consist of the entire premium received, and benefits incurred represent the total of death benefits paid and the change in policy reserves. Premiums received for annuity policies without mortality or morbidity risk and for guaranteed interest and group annuity contracts are recorded using deposit accounting, and credited directly to an appropriate policy reserve account, without recognizing premium income. Under GAAP, premiums received in excess of policy charges would not be recognized as premium revenue and benefits would represent the excess of benefits paid over the policy account value and interest credited to the account values.

Benefit Reserves

Certain policy reserves are calculated using statutorily prescribed interest and mortality assumptions rather than on estimated expected experience or actual account balances as would be required under GAAP.

Reinsurance

A liability for reinsurance balances is required to be provided for unsecured policy reserves ceded to reinsurers not authorized to assume such business. Changes to those amounts are credited or charged directly to capital and surplus. Under GAAP, an allowance for amounts deemed uncollectible would be established through a charge to earnings.

Policy and contract liabilities ceded to reinsurers have been reported as reductions of the related reserves rather than as assets as would be required under GAAP. Commissions allowed by reinsurers on business

ceded are reported as income when incurred rather than being deferred and amortized with policy acquisition costs as required under GAAP.

Employee Benefits

For purposes of calculating the Company's pension and postretirement benefit obligations, vested participants, non-vested participants and current retirees are included in the valuation. The prepaid pension asset resulting from the excess of the fair value of plan assets over the benefit obligation, which is nonadmitted under statutory accounting rules, is included in other comprehensive income under GAAP.

Deferred Income Taxes

Deferred tax assets are recorded for the amount of gross deferred tax assets expected to be realized in future years, and a valuation allowance is established for deferred tax assets not meeting a more-likely-than-not realization threshold. Deferred tax assets are limited to 1) the amount of federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse during a time frame corresponding with Internal Revenue Service (IRS) tax loss carryback provisions, not to exceed three years, including amounts established in accordance with the provision of SSAP No. 5R, plus 2) for entities who meet the required realization threshold in SSAP No. 101, the lesser of the remaining gross deferred tax assets expected to be realized within three years of the balance sheet date or 15% of capital and surplus excluding any net deferred tax assets, electronic data processing equipment and operating software and any net positive goodwill, plus 3) the amount of remaining gross deferred tax assets that can be offset against existing gross deferred tax liabilities. The remaining deferred tax assets are nonadmitted. Under GAAP, a deferred tax asset is recorded for the amount of gross deferred tax assets expected to be realized in all future years, and a valuation allowance is established for deferred tax assets not meeting a more-likely-than-not realization threshold.

Policyholder Dividends

Policyholder dividends are recognized when declared rather than over the term of the related policies as required by GAAP.

Surplus Notes

Surplus Notes are classified as a component of equity rather than as long-term debt.

Statements of Cash Flow

Cash, cash equivalents and short-term investments in the statements of cash flow represent cash balances and investments with initial maturities of one year or less. Under GAAP, the corresponding captions of cash and cash equivalents include cash balances and investments with initial maturities of three months or less.

Other significant statutory accounting practices follow.

Restricted Assets

The Company has assets pledged as collateral, or otherwise not exclusively under control of the Company, totaling \$156.8 million and \$124.5 million as of December 31, 2025 and 2024, respectively. These assets are primarily collateral held in relation to the Company's securities lending program. These restricted assets are discussed in more detail in their relevant section.

Investments

Debt securities, common stocks, preferred stocks, and short-term investments are stated at values prescribed by the NAIC, as follows:

Debt securities not backed by other loans are principally stated at amortized cost using the interest method.

Single-class and multiclass mortgage-backed/asset-backed securities are valued at amortized cost using the interest method including anticipated prepayments. Prepayment assumptions are obtained from Bloomberg and broker-dealer prepayment models or derived from empirical data and are based on the current interest rate and economic environment. The retrospective adjustment method is used to value all such securities except securities that are deemed to be other-than-temporarily impaired and securities that are principal-only or interest-only, which are valued using the prospective method.

Unaffiliated common stocks are reported at fair value utilizing publicly quoted prices from third-party pricing services and the related unrealized capital gains and losses are reported in capital and surplus along with any adjustment for federal income taxes.

Redeemable preferred stocks that have characteristics of debt securities and are rated as medium quality or better are reported at amortized cost. All other redeemable preferred stocks are reported at the lower of amortized cost or fair value. Perpetual preferred stocks are valued at fair value, not exceeding any currently effective call price, utilizing publicly quoted prices from third-party pricing services and the related unrealized capital gains and losses are reported in capital and surplus along with any adjustment for federal income taxes.

There are no restrictions on unaffiliated common or preferred stocks.

Short-term investments include investments with remaining maturities of one year or less at the date of acquisition and are principally stated at amortized cost, which approximates fair value.

Cash equivalents are short-term highly liquid investments with original maturities of three months or less and are principally stated at amortized cost, which approximates fair value.

The Company's insurance subsidiaries are reported at their underlying audited statutory equity. The Company's noninsurance subsidiaries are reported based on underlying audited GAAP equity. The net change in the subsidiaries' equity is included in capital and surplus.

Mortgage loans are reported at unpaid principal balances, less an allowance for impairment. A mortgage loan is considered to be impaired when, based on current information and events, it is probable that the Company will be unable to collect all principal and interest amounts due according to the contractual terms of the mortgage agreement. When management determines foreclosure is probable, the impairment is other than temporary; the mortgage loan is written down to realizable value and a realized loss is recognized.

Policy loans are reported at unpaid principal balances.

Real estate occupied by the Company and real estate held for the production of income are reported at depreciated cost net of related obligations. Real estate that the Company has the intent to sell is reported at the lower of depreciated cost or fair value, net of related obligations. Depreciation is computed by the straight-line method over the estimated useful life of the properties.

Property acquired in the satisfaction of debt is recorded at the lower of cost less accumulated depreciation or fair market value.

Other invested assets reflect primarily investments in joint ventures, partnerships and limited liability companies. Joint ventures, partnerships, and limited liability companies are carried at the Company's interest in the underlying audited GAAP equity of the investee. Undistributed earnings allocated to the Company are reported in the change in net unrealized capital gains or losses. Distributions from earnings of the investees are reported as net investment income when received. Because of the indirect nature of these investments, there is an inherent reduction in transparency and liquidity and increased complexity in valuing the underlying investments. As a result, these investments are actively managed by the Company's management via detailed evaluation of the investment performance relative to risk.

Debt securities and other loan interest are credited to income as it accrues. Dividends are recorded as income on ex-dividend dates. To the extent income is uncertain, due and accrued income is excluded and treated as nonadmitted through surplus.

Realized capital gains and losses are determined using the specific identification method.

Premiums

Life and accident and health premiums are recognized as revenue when due. Premiums for annuity policies with mortality and morbidity risk, except for guaranteed interest and group annuity contracts, are also recognized as revenue when due. Premiums received for annuity policies without mortality or morbidity risk and for guaranteed interest and group annuity contracts are recorded using deposit accounting.

Policy Reserves

Life, annuity and accident and health disability benefit reserves are developed by actuarial methods and are determined based on published tables using statutorily specified interest rates and valuation methods that will provide, in the aggregate, reserves that are greater than or equal to the minimum or guaranteed policy cash values or the amounts required by the Department. The Company waives deduction of

The Western and Southern Life Insurance Company

Notes to Financial Statements (Statutory-Basis)
December 31, 2025, 2024 and 2023

deferred fractional premiums on the death of life and annuity policy insureds and does return any premium beyond the date of death. Surrender values on policies do not exceed the corresponding benefit reserves. Policies issued subject to multiple table substandard extra premiums are valued on the standard reserve basis which recognizes the nonlevel incidence of the excess mortality costs. Additional reserves are established when the results of cash flow testing under various interest rate scenarios indicate the need for such reserves, or the net premiums exceed the gross premiums on any insurance in-force.

For policies issued in 2020 or after, life insurance reserves are developed using principle-based policyholder and asset assumptions with margins and floored at formulaic reserves based upon published tables using statutorily specified interest rates and valuation methods.

Formulaic policy reserves for life insurance and supplemental benefits are computed on the Commissioner's Reserve Valuation Method. The following mortality tables and interest rates are used:

	Percentage of Reserves	
	2025	2024
Life insurance:		
1941 Commissioners Standard Ordinary, 2-1/4% - 3-1/2%	5.0 %	5.3 %
1941 Standard Industrial, 2-1/2% - 3-1/2%	8.3	8.3
1958 Commissioners Standard Ordinary, 2-1/2% - 6%	14.0	14.7
1980 Commissioners Standard Ordinary, 4% - 6%	39.4	40.1
2001 Commissioners Standard Ordinary, 3-1/2% - 4-1/2%	30.5	28.6
2017 Commissioners Standard Ordinary, 3-1/2%	1.2	1.2
Other, 2-1/2% - 6%	0.8	0.9
	99.2	99.1
Other benefits (including annuities):		
Various, 2-1/2% - 8-1/4%	0.8	0.9
	100.0 %	100.0 %

The mean reserve method is used to adjust the calculated terminal reserve to the appropriate reserve at December 31. Mean reserves are determined by computing the regular mean reserve for the plan at the rated age and holding, in addition, one-half of the extra premium charge for the year. Policies issued after July 1 for substandard lives, are charged an extra premium plus the regular premium for the true age. Mean reserves are based on appropriate multiples of standard rates of mortality. An asset is recorded for deferred premiums net of loading to adjust the reserve for modal premium payments.

For substandard table ratings, mean reserves are based on 125% to 500% of standard mortality rates. For flat extra ratings, mean reserves are based on the standard or substandard mortality rates increased by 1 to 25 deaths per thousand.

As of December 31, 2025 and 2024, reserves of \$9.5 million and \$10.6 million, respectively, were recorded on in-force amounts of \$698.4 million and \$735.0 million, respectively, for which gross premiums are less than the net premiums according to the standard of valuation required by the Department. The Company anticipates investment income as a factor in the premium deficiency calculation for all accident and health contracts.

Tabular interest, tabular less actual reserves released, and tabular cost have been determined by formula. Tabular interest on funds not involving life contingencies is calculated as one-hundredth of the product of such valuation rate of interest times the mean of the amount of funds subject to such valuation rate of interest held at the beginning and end of the year of valuation.

The establishment of appropriate reserves is an inherently uncertain process, and there can be no assurance that the ultimate liability will not exceed the Company's policy reserves and have an adverse effect on the Company's results of operations and financial condition. Due to the inherent uncertainty of estimating reserves, it has been necessary, and may over time continue to be necessary, to revise estimated future liabilities as reflected in the Company's policy reserves.

Policyholders' Dividends

The amount of policyholders' dividends to be paid (including those on policies included in the Closed Block) is determined annually by the Company's Board of Directors. The aggregate amount of policyholders' dividends is related to actual interest, mortality, morbidity and expense experience for the year and judgment as to the appropriate level of statutory surplus to be retained by the Company.

Policy and Contract Claims

Policy and contract claims in process of settlement represent the estimated ultimate net cost of all reported and unreported claims incurred through December 31, 2025 and 2024. The reserves for unpaid claims are estimated using individual case-basis valuations and statistical analysis. These estimates are subject to the effects of trends in claim severity and frequency. Although considerable variability is inherent in such estimates, management believes that the reserves for claims are adequate. The estimates are continually reviewed and adjusted as necessary as experience develops or new information becomes known; such adjustments are included in current operations.

Reinsurance

Reinsurance premiums and benefits paid or provided are accounted for on a basis consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts.

Securities Lending

At December 31, 2025, the Company has loaned \$129.5 million and \$17.9 million (fair value) in the general and separate accounts, respectively, of various debt securities, preferred stocks and common stocks as part of a securities lending program administered by Mitsubishi UFJ Trust and Banking Corporation. At December 31, 2024, the Company had loaned \$108.9 million and \$7.0 million (fair value) in the general and separate accounts, respectively. The Company maintains effective control over all loaned securities and, therefore, continues to report such securities as invested assets in the balance sheets.

The Company requires at the initial transaction that the fair value of the cash collateral received must be equal to 102% of the fair value of the loaned securities. The Company monitors the ratio of the fair value of the collateral to loaned securities to ensure it does not fall below 100%. If the fair value of the collateral falls below 100% of the fair value of the securities loaned, the Company nonadmits that portion of the

The Western and Southern Life Insurance Company

Notes to Financial Statements (Statutory-Basis)
December 31, 2025, 2024 and 2023

loaned security. At December 31, 2025 and 2024, the Company did not nonadmit any portion of the loaned securities.

The Company reports all collateral on the balance sheet, with an offsetting liability recognized for the obligation to return the collateral. Collateral for the securities lending program is managed either by an affiliated agent of the Company or by Mitsubishi UFJ Trust and Banking Corporation, an unaffiliated agent. Collateral managed by an affiliated agent is invested primarily in investment-grade debt securities and cash equivalents and is included in the applicable balance sheet amount because the funds are available for the general use of the Company.

At December 31, 2025 and 2024, the fair value of the total collateral in the general account was \$132.8 million and \$111.5 million, respectively, all of which was managed by an affiliated agent. The fair value of the total collateral in the separate account was \$18.2 million and \$7.2 million at December 31, 2025 and 2024, respectively, all of which was managed by an unaffiliated agent. At December 31, 2025, the collateral for all securities on loan could be requested to be returned on demand by the borrower.

The aggregate collateral broken out by maturity date is as follows at December 31, 2025:

	Amortized Cost	Fair Value
	<i>(In Thousands)</i>	
Open	\$ —	\$ —
30 days or less	76,825	76,825
31 to 60 days	629	629
61 to 90 days	1,117	1,117
91 to 120 days	6,432	6,433
121 to 180 days	6,383	6,385
181 to 365 days	21,875	21,890
1 to 2 years	6,952	6,965
2 to 3 years	1,500	1,500
Greater than 3 years	11,000	11,000
Total collateral	<u>\$ 132,713</u>	<u>\$ 132,744</u>

At December 31, 2025, all of the collateral held for the securities lending program was invested in tradable securities that could be sold and used to pay for the \$133.2 million and \$18.2 million in the general and separate accounts, respectively, in collateral calls that could come due under a worst-case scenario where all collateral was called simultaneously.

The Company does not accept collateral that is not permitted by contract or custom to sell or repledge. The Company does not have any securities lending transactions that extend beyond one year from the reporting date.

Separate Account

The Company maintains a separate account, which holds all of the Company's pension plan assets. The assets of the separate account consist primarily of marketable securities, which are recorded at fair value. These assets are considered legally insulated from the general accounts.

There are no separate account liabilities that are guaranteed by the general account. (See Note 10 for further discussion on the general account's responsibility as it relates to the obligations of the Company's pension plan).

The activity within the separate account, including realized and unrealized gains or losses on its investments, has no effect on net income or capital and surplus of the Company. The Company's statements of operations reflect annuity payments to pension plan participants and other expenses of the separate account, as well as the reimbursement of such expenses from the separate account.

Federal Income Taxes

The Company files a consolidated income tax return with its eligible subsidiaries and affiliates. The provision for federal income taxes is allocated to the individual companies using a separate return method based upon a written tax-sharing agreement. Under the agreement, the benefits from losses of subsidiaries and affiliates are retained by the subsidiary and affiliated companies. The Company pays all federal income taxes due for all members of the group. The Company then immediately charges or reimburses, as the case may be, the members of the group an amount consistent with the method described in the tax-sharing agreement.

The Company recognizes accrued interest and penalties related to tax contingencies in Current federal income taxes recoverable or payable and Federal income tax expense (benefit), excluding tax on capital gains on the balance sheets and statements of operations, respectively.

Postretirement Benefits Other Than Pensions

The Company accounts for its postretirement benefits other than pensions on an accrual basis. The postretirement benefit obligation for current retirees and fully eligible employees is measured by estimating the actuarial present value of benefits expected to be received at retirement using explicit assumptions.

Actuarial and investment gains and losses arising from differences between assumptions and actual experience upon subsequent remeasurement of the obligation may be recognized as a component of the net periodic benefit cost in the current period or amortized. The net gain or loss will be included as a component of net postretirement benefit cost for a year if, as of the beginning of the year, the unrecognized net gain or loss exceeds 10% of the postretirement benefit obligation. That gain or loss, if not recognized immediately, will be amortized over the average life expectancy of the employer's fully vested and retiree group.

Accounting Changes

Effective January 1, 2025, the NAIC adopted revisions to SSAP No. 26, *Bonds*, and SSAP No. 43, *Asset Backed-Securities*, to reflect accounting and reporting guidance under the Principles Based Bond Definition (PBBB) for qualified investments. As a result of these adoptions, investments qualified as issuer credit obligations are reported under SSAP No. 26; investments qualified as asset-backed securities are reported under SSAP No. 43.

Effective January 1, 2025, the NAIC adopted revisions to SSAP No. 21, *Other Admitted Assets*, to reflect accounting and reporting guidance for investments that do not meet the requirements of PBBB, and for residual tranches or interests/loss positions. There were no securities reclassified from debt securities to other invested assets.

There were no significant accounting changes in 2024, or 2023.

Business Combinations

On December 31, 2018, the Company purchased 100% of the common stock of Gerber Life from Nestlé S.A. (Nestlé). Gerber Life is an insurer that operates primarily in the juvenile life insurance and medical stop-loss insurance markets. Gerber Life is New York-domiciled and is licensed in 50 states, the District of Columbia, Puerto Rico and certain Canadian provinces. The cost of the acquired entity was \$1,257.3 million. The original goodwill balance was \$945.5 million, of which \$528.1 million was admitted, based on an admission limit of 10% of adjusted company surplus as of the last reported period.

The transaction was accounted for as a statutory purchase and reflects the following:

Year	Admitted Goodwill at Reporting Date	Goodwill Amortized in Period	Book Value of Acquisition	Admitted Goodwill as a % of Admitted Acquisition
<i>(In Thousands)</i>				
2025	\$ 283,664	\$ 94,555	\$ 1,014,883	28.0 %
2024	378,219	94,555	1,065,422	35.5

The adjusted company surplus as of the last reported period was calculated as follows:

	2025	2024
<i>(In Thousands)</i>		
Company Surplus as of September 30	\$ 7,629,765	\$ 7,311,030
Less September 30 electronic data processing	21,062	16,380
Less September 30 net deferred tax assets	—	—
Less September 30 net positive goodwill	307,303	401,858
Adjusted Company surplus as of September 30	\$ 7,301,400	\$ 6,892,792
Admitted goodwill as a percentage of adjusted surplus	3.9 %	5.5 %

Subsequent Events

The Company recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the balance sheet date. For nonrecognized subsequent events that must be disclosed to keep the financial statements from being misleading, the Company is required to disclose the nature of the event as well as an estimate of its financial effect, or a statement that such an estimate cannot be made. Management has evaluated subsequent events through the issuance of these financial statements on April 20, 2026.

2. Investments

The book/adjusted carrying value and fair value of the Company's investments in debt securities are summarized in the following tables. The tables pertaining to 2025 include revisions to bond categorization, reflecting the principles-based bond definition that was implemented as of January 1, 2025:

	Book/ Adjusted Carrying Value	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
	<i>(In Thousands)</i>			
At December 31, 2025:				
Issuer credit obligations				
U.S. government obligations, exempt from RBC	\$ 47,975	\$ 949	\$ (82)	\$ 48,842
Non-US sovereign jurisdiction securities	29,073	310	(5,171)	24,212
Municipal bonds - general obligations (direct and guaranteed)	7,910	171	—	8,081
Municipal bonds - special revenue	37,288	1,124	(1,681)	36,731
Corporate bonds	2,647,047	77,963	(193,625)	2,531,385
Single entity backed obligations	10,759	190	(773)	10,176
Subtotal issuer credit obligations	<u>\$ 2,780,052</u>	<u>\$ 80,707</u>	<u>\$ (201,332)</u>	<u>\$ 2,659,427</u>
Asset backed securities				
Agency residential mortgage-backed securities - guaranteed (exempt from RBC)	\$ 10	\$ —	\$ —	\$ 10
Agency commercial mortgage-backed securities - guaranteed (exempt from RBC)	808	13	—	821
Agency residential mortgage-backed securities - not/partially guaranteed (not exempt from RBC)	38,247	134	(2,654)	35,727
Non-agency residential mortgage-backed securities	56,683	579	(4,733)	52,529
Non-agency commercial mortgage-backed securities	28,074	28	(2,373)	25,729
Other financial asset-backed securities - self liquidating	11,625	2,317	(68)	13,874
Subtotal asset backed securities	<u>\$ 135,447</u>	<u>\$ 3,071</u>	<u>\$ (9,828)</u>	<u>\$ 128,690</u>
Total debt securities	<u>\$ 2,915,499</u>	<u>\$ 83,778</u>	<u>\$ (211,160)</u>	<u>\$ 2,788,117</u>

The Western and Southern Life Insurance Company

Notes to Financial Statements (Statutory-Basis)
December 31, 2025, 2024 and 2023

	Book/ Adjusted Carrying Value	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
<i>(In Thousands)</i>				
At December 31, 2024:				
U.S. Treasury securities and obligations of U.S. government corporation and agencies	\$ 12,227	\$ —	\$ (257)	\$ 11,970
Debt securities issued by states of the U.S. and political subdivisions of the states	22,233	238	(74)	22,397
Non-U.S. government securities	44,024	30	(9,277)	34,777
Corporate securities	2,720,339	57,592	(227,586)	2,550,345
Commercial mortgage-backed securities	22,022	39	(3,740)	18,321
Residential mortgage-backed securities	101,087	2,671	(9,940)	93,818
Asset-backed securities	87,212	1,041	(4,479)	83,774
Total	\$ 3,009,144	\$ 61,611	\$ (255,353)	\$ 2,815,402

At December 31, 2025 and 2024, the Company held unrated or below-investment-grade debt securities with a book/adjusted carrying value of \$60.4 million and \$118.6 million, respectively, and an aggregate fair value of \$57.8 million and \$114.8 million, respectively. As of December 31, 2025 and 2024, such holdings amounted to 2.1% and 3.9%, respectively, of the Company's investments in debt securities and 0.4% and 0.9%, respectively, of the Company's total admitted assets. The Company performs periodic evaluations of the relative credit standing of the issuers of these debt securities. The Company considers these evaluations in its overall investment strategy.

Unrealized gains and losses on investments in unaffiliated common stocks, mutual funds and common stocks of subsidiaries are reported directly in capital and surplus and do not affect net income. The unrealized gains and unrealized losses on, and the cost and fair value of those investments and preferred stocks are as follows:

	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
<i>(In Thousands)</i>				
At December 31, 2025:				
Preferred stocks	\$ 94,420	\$ 979	\$ (5,996)	\$ 89,403

Total	\$ (2,986)	\$ 47,401	\$ —	\$ —

⁽¹⁾ Amounts relate to securities subject to SSAP 43R.

Investments that are impaired at December 31, 2025 and 2024, for which other-than-temporary impairments have not been recognized, consist mainly of corporate debt securities, asset-backed securities, residential mortgage-backed securities and unaffiliated common stocks.

The aggregated unrealized loss is approximately 12.1% and 12.2% of the carrying value of securities considered temporarily impaired at December 31, 2025 and 2024, respectively. At December 31, 2025, there were a total of 376 securities held that are considered temporarily impaired, 281 of which have been impaired for 12 months or longer. At December 31, 2024, there were a total of 458 securities held that were considered temporarily impaired, 299 of which had been impaired for 12 months or longer. The Company recorded other-than-temporary impairments on securities of \$2.6 million, \$0.6 million and \$20.1 million for the years ended December 31, 2025, 2024 and 2023, respectively.

The Western and Southern Life Insurance Company

Notes to Financial Statements (Statutory-Basis)

December 31, 2025, 2024 and 2023

The following is a list of each loan-backed security held at December 31, 2025, with a recognized other-than-temporary impairment (OTTI) for the year ended December 31, 2025, where the present value of future cash flows expected to be collected was less than the amortized cost basis of the securities.

CUSIP	Book/Adj Carrying Value Amortized Cost Before Current Period OTTI	Present Value of Future Cash Flows	Recognized Other- Than- Temporary Impairment	Amortized Cost After Other- Than- Temporary Impairment	Fair Value	Date of Other- Than- Temporary Impairment
-------	---	--	--	---	---------------	---

(In Thousands)

For the year ended, December 31, 2025:

	\$	—	\$	—	\$	—	\$	—
Total		XXX	XXX	\$	—	XXX	XXX	XXX

The Company had no OTTI on loan-backed securities for the year ended December 31, 2025, due to the intent to sell the security or the inability or lack of intent to retain the investment in the security for a period of time sufficient to recover the amortized cost basis of the security.

A summary of the cost or amortized cost and fair value of the Company's debt securities at December 31, 2025, by contractual maturity, is as follows:

	Book/ Adjusted Carrying Value	Fair Value
(In Thousands)		
Years to maturity:		
One or less	\$ 72,221	\$ 72,747
After one through five	269,431	280,497
After five through ten	323,045	332,642
After ten	2,115,355	1,973,541
Mortgage-backed securities/asset-backed securities	135,447	128,690
Total	<u>\$ 2,915,499</u>	<u>\$ 2,788,117</u>

The expected maturities may differ from contractual maturities in the foregoing table because certain borrowers have the right to call or prepay obligations with or without call or prepayment penalties and because asset-backed and mortgage-backed securities (including floating-rate securities) provide for periodic payments throughout their lives.

The Western and Southern Life Insurance Company

Notes to Financial Statements (Statutory-Basis)

December 31, 2025, 2024 and 2023

Proceeds from sales of investments in debt securities during 2025, 2024 and 2023 were \$259.2 million, \$211.5 million, and \$60.6 million; gross gains of \$6.5 million, \$6.4 million, and \$0.6 million and gross losses of \$2.3 million, \$10.7 million, and \$1.5 million were realized on these sales in 2025, 2024 and 2023, respectively.

Proceeds from the sales of investments in equity securities during 2025, 2024 and 2023 were \$311.1 million, \$313.3 million, and \$357.2 million; gross gains of \$90.5 million, \$45.5 million, and \$80.7 million and gross losses of \$6.4 million, \$1.9 million, and \$12.4 million were realized on these sales in 2025, 2024 and 2023, respectively.

Realized capital gains (losses) are reported net of federal income taxes and amounts transferred to the IMR as follows for the years ended December 31:

	2025	2024	2023
	<i>(In Thousands)</i>		
Realized capital gains (losses)	\$ 52,321	\$ (21,027)	\$ (17,404)
Less amount transferred to IMR (net of related taxes (benefits) of \$505 in 2025, \$(753) in 2024, and \$(183) in 2023)	1,898	(2,833)	(689)
Less federal income tax expense (benefit) of realized capital gains (losses)	5,768	3,904	(654)
Net realized capital gains (losses)	\$ 44,655	\$ (22,098)	\$ (16,061)

Net investment income was generated from the following for the years ended December 31:

	2025	2024	2023
	<i>(In Thousands)</i>		
Debt securities	\$ 149,991	\$ 144,410	\$ 145,319
Equity securities	186,047	427,980	294,929
Mortgage loans	2,165	2,231	2,273
Real estate	12,168	10,597	10,536
Policy loans	10,578	10,699	10,582
Cash, cash equivalents and short-term investments	4,341	5,915	2,588
Other invested assets	95,426	144,311	195,684
Other	118	233	621
Gross investment income	460,834	746,376	662,532
Investment expenses	69,313	68,938	71,769
Net investment income	\$ 391,521	\$ 677,438	\$ 590,763

The Company's investments in mortgage loans principally involve commercial real estate. At December 31, 2025, 80.6% of such mortgages, or \$41.4 million, involved properties located in Ohio, Washington, and South Carolina. Such investments consist of primarily first-mortgage liens on completed income-producing properties. The aggregate mortgage outstanding to any one borrower does not exceed \$20.5 million. During 2025, there were no loans issued. At the issuance of a loan, the percentage of any one loan to value of security, exclusive of insured, guaranteed or purchase money mortgage did not exceed 80.0%. During 2025, the Company did not reduce interest rates on any outstanding mortgages.

3. Fair Values of Financial Instruments

Included in various investment-related line items in the financial statements are certain financial instruments carried at fair value. Other financial instruments are periodically measured at fair value such as when impaired or, for certain bonds and preferred stocks, when carried at the lower of cost or market.

The Company uses fair value measurements to record the fair value of certain assets and liabilities and to estimate the fair value of financial instruments not recorded at fair value but required to be disclosed at fair value. Certain financial instruments, particularly policyholder liabilities other than investment-type contracts, are excluded from this fair value discussion.

Fair value is defined as the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. The Company's financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on the following hierarchy that prioritizes inputs to valuation techniques used to measure fair value into three levels. The Company's policy is to recognize transfers in and transfers out of levels at the beginning of the quarterly reporting period.

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities. The Company's Level 1 assets and liabilities primarily include exchange-traded equity securities and mutual funds, including those which are part of the Company's separate account assets.
- Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. The Company's Level 2 assets and liabilities primarily include debt securities within the Company's separate account for which public quotations are not available, but that are priced by third-party pricing services or internal models using observable inputs. Also included in Level 2 assets and liabilities are preferred stock and fixed income residual tranches. The fair value of these instruments is determined through the use of third-party pricing services or models utilizing market observable inputs.
- Level 3 - Significant unobservable inputs for the asset or liability. The Company's Level 3 assets and liabilities primarily include private real estate funds within the Company's separate account that are priced utilizing significant unobservable inputs. Also included in Level 3 assets and liabilities are common and preferred stocks being priced by broker quotes or utilizing recent financing for similar securities.

Fair value estimates are made at a specific point in time, based on available market information and judgments about the financial instrument, including discount rates, estimates of timing, amount of expected future cash flows and the credit standing of the issuer. Such estimates do not consider the tax impact of the realization of unrealized gains or losses.

For Level 3 investments, the fair value estimates cannot be substantiated by comparison to independent markets. In addition, the disclosed fair value may not be realized in the immediate settlement of the financial instrument.

Certain investments utilize net asset value (NAV) as a practical expedient for fair value. These investments are reported separately from the hierarchy. Investments utilizing NAV consist mainly of equity interest in limited partnerships and limited liabilities in the separate account. These investments contain fixed income, common stock, and real estate characteristics. The interests in these partnerships can be sold or transferred with prior consent from the general partner. The average remaining life of the investments is 14.3 years. The Company's unfunded commitment for these investments is \$41.1 million. In addition, a collective trust in the separate account utilizing NAV is primarily investing in domestic fixed income securities. Shares in the trust can be redeemed at their net asset value. The NAV for this investment is \$12.14. The Company does not intend to sell any investments utilizing NAV.

As described below, certain fair values are determined through the use of third-party pricing services. Management does not adjust prices received from third parties; however, the Company does analyze the third-party pricing services' valuation methodologies and related inputs and performs additional evaluation to determine the appropriate level within the fair value hierarchy. The Company performs annual due diligence of third-party pricing services, which includes assessing the vendor's valuation qualifications, control environment, analysis of asset class-specific valuation methodologies and understanding of market observable assumptions and unobservable assumptions, if any, employed in the valuation methodology. Care should be exercised in deriving conclusions about the Company's business, its value or financial position based on the fair value information of financial instruments presented below. The following discussion describes the valuation methodologies utilized by the Company for assets and liabilities measured or disclosed at fair value.

Debt and Equity Securities

The fair values of debt securities and asset/mortgage-backed securities have been determined through the use of third-party pricing services utilizing market observable inputs. Private placement securities trading in less liquid or illiquid markets with limited or no pricing information are valued using either broker quotes or by discounting the expected cash flows using current market-consistent rates applicable to the yield, credit quality and maturity of each security.

The fair values of actively traded equity securities and exchange traded funds (including exchange traded funds with debt like characteristics) have been determined utilizing publicly quoted prices obtained from third-party pricing services. The fair values of certain equity securities for which no publicly quoted prices are available have been determined through the use of third-party pricing services utilizing market observable inputs. Actively traded mutual funds are valued using the net asset values of the funds. The fair value of equity securities included in Level 3 has been determined by utilizing broker quotes or recent financing for similar securities.

Mortgage Loans

The fair values for mortgage loans, consisting principally of commercial real estate loans, are estimated using discounted cash flow analyses, using interest rates currently being offered for similar loans collateralized by properties with similar investment risk. The fair values for mortgage loans in default are established at the lower of the fair value of the underlying collateral less costs to sell or the carrying amount of the loan.

Cash, Cash Equivalents and Short-Term Investments

The fair values of cash, cash equivalents and short-term investments are based on quoted market prices or stated amounts.

Securities Lending Reinvested Collateral Assets

The fair values of securities lending reinvested collateral assets are determined through the use of third-party sources utilizing publicly quoted prices.

Other Invested Assets

Other invested assets primarily include surplus debentures and fixed income residual tranches for which fair values have been determined through the use of third-party pricing services utilizing market observable inputs.

Assets Held in Separate Accounts

Assets held in separate accounts include debt securities, equity securities, mutual funds, surplus notes, private equity, and private debt fund investments. The fair values of debt securities, equity securities and mutual funds have been determined using the same methodologies as similar assets held in the general account. The fair values of private equity and private debt fund investments have been determined utilizing the net asset values of the funds. The fair values of the private real estate funds have been determined by significant unobservable inputs.

Life and Annuity Reserves for Investment-Type Contracts and Deposit Fund Liabilities

The fair value of liabilities for investment-type contracts is based on the present value of estimated liability cash flows, which are discounted using rates that incorporate risk-free rates and margins for the Company's own credit spread and the riskiness of cash flows. Key assumptions to the cash flow model include the timing of policyholder withdrawals and the level of interest credited to contract balances. Fair values for insurance reserves are not required to be disclosed. However, the estimated fair values of all insurance reserves and investment contracts are taken into consideration in the Company's overall management of interest rate risk.

Securities Lending Liability

The liability represents the Company's obligation to return collateral related to securities lending transactions. The liability is short-term in nature and therefore, the fair value of the obligation approximates the carrying amount.

The Western and Southern Life Insurance Company

Notes to Financial Statements (Statutory-Basis)
December 31, 2025, 2024 and 2023

Assets and liabilities measured at fair value on a recurring basis are outlined below:

4. Related-Party Transactions

The Company owns a 100% interest in Integrity and WSLAC, whose carrying values based on underlying statutory surplus at December 31, 2025, are \$1.4 billion and \$2.2 billion, respectively. The accounting policies of Integrity and WSLAC are the same as those of the Company described in Note 1. The summary financial data for Integrity and WSLAC follows:

	2025	2024
	<i>(In Thousands)</i>	
Integrity:		
Admitted Assets	\$ 8,512,875	\$ 8,623,981
Liabilities	7,114,261	7,349,809
Statutory Surplus	<u>\$ 1,398,614</u>	<u>\$ 1,274,172</u>
Net Income	<u>\$ 52,420</u>	<u>\$ 118,052</u>
WSLAC:		
Admitted Assets	\$ 39,733,479	\$ 35,071,019
Liabilities	37,497,403	33,045,720
Statutory Surplus	<u>\$ 2,236,076</u>	<u>\$ 2,025,299</u>
Net Income	<u>\$ 163,253</u>	<u>\$ 248,976</u>

The Company has an equity interest in certain partnerships that made payments of principal and interest under mortgage financing arrangements to subsidiaries in the amount of \$29.1 million, \$30.6 million, and \$26.0 million in 2025, 2024 and 2023, respectively. The principal balance of the mortgage financing arrangements with subsidiaries was \$291.2 million and \$300.6 million at December 31, 2025 and 2024, respectively.

At December 31, 2025 and 2024, the Company had \$94.1 million and \$217.1 million, respectively, invested in the Touchstone Funds, which are exchange traded and mutual funds administered by Touchstone Advisors, Inc., an indirect subsidiary of the Company.

At December 31, 2025 and 2024, the Company had \$503.0 million and \$611.2 million, respectively, invested in fixed income residual tranches and various private equity and private debt funds managed by Fort Washington Investment Advisors, Inc., a subsidiary of the Company.

At December 31, 2025 and 2024, the Company had \$1,546.3 million and \$1,339.4 million, respectively, invested in WS Real Estate Holdings, LLC, which is a holding company managed by Eagle Realty Group, LLC, a subsidiary of the Company.

The Company had an outstanding loan due to WSLAC in the amount of \$0.0 million and \$0.0 million as of December 31, 2025 and 2024, respectively. The loan is in the form of a line of credit that can be drawn up to \$250.0 million, with any outstanding principal due January 6, 2033.

In November 2025, the Company received a \$100.0 million ordinary dividend from Integrity. The dividend was in the form of cash.

In November 2025, the Company received a \$50.0 million ordinary dividend from Gerber Life. The dividend was in the form of cash.

In August 2025, the Company sold \$84.0 million of fixed income securities in exchange for cash to WSLAC. The fixed income securities sold were exchange traded funds administered by Touchstone Advisors, Inc.

In July 2025, the Company sold \$49.9 million of equity securities in exchange for cash to The Lafayette Life Insurance Company (Lafayette Life).

In April 2025, the Company sold \$49.5 million of fixed income securities in exchange for cash to Gerber Life. The fixed income securities sold were exchange traded funds administered by Touchstone Advisors, Inc.

In October 2024, the Company received a \$200.0 million dividend from Integrity. Of the total dividend received, \$7.7 million was ordinary and \$192.3 million was extraordinary. The dividend was in the form of \$160.3 million in cash and \$39.7 million in equity securities.

In July 2024, the Company sold \$71.3 million of other invested assets in exchange for cash to WSLAC.

In June 2024, the Company received a \$45.0 million capital contribution from WSFG. The contribution was in the form of cash.

In June 2024, the Company received a \$50.0 million ordinary dividend from Gerber Life. The dividend was in the form of cash.

In April 2024, the Company sold \$62.9 million of equity securities in exchange for cash to National. The equity securities sold were exchange traded funds administered by Touchstone Advisors, Inc.

In March 2024, the Company paid a \$155.0 million ordinary dividend to WSFG. The dividend was in the form of cash.

In March 2024, the Company received a \$155.0 million ordinary dividend from WSLAC. The dividend was in the form of cash.

In March 2024, the Company sold \$50.0 million of fixed income securities in exchange for cash to Gerber Life. The fixed income securities sold were exchange traded funds administered by Touchstone Advisors, Inc.

In December 2023, the Company received a \$150.0 million capital contribution from WSFG. The contribution was in the form of cash.

In December 2023, the Company paid a \$275.0 million capital contribution to WSLAC. The contribution was in the form of \$225.0 million and \$50.0 million in cash and equity securities, respectively.

In December 2023, the Company received a \$125.0 million ordinary dividend from Integrity. The dividend was in the form of \$75.0 million and \$50.0 million in cash and equity securities, respectively.

In August 2023, the Company entered into a Pension Risk Transfer agreement with WSLAC. Refer to Note 10 for more detail.

In June and July 2023, the Company sold \$25.0 million and \$24.0 million of equity securities, respectively, in exchange for cash to Gerber Life.

In March 2023, the Company paid a \$245.0 million ordinary dividend to WSFG. The dividend was in the form of cash.

In March 2023, the Company received a \$150.0 million ordinary dividend from WSLAC. The dividend was in the form of cash.

In the the first quarter of 2023, the Company sold \$80.0 million of equity securities in exchange for cash to National.

The Company had \$49.9 million and \$28.0 million receivable from parent, subsidiaries and affiliates as of December 31, 2025 and 2024, respectively. The Company had \$0.9 million and \$2.8 million payable to parent, subsidiaries and affiliates as of December 31, 2025 and 2024, respectively. The terms of the settlement generally require that these amounts be settled in cash within 30 days.

The Company has entered into multiple reinsurance agreements with affiliated entities. See Note 5 for further description.

5. Reinsurance

Certain premiums and benefits are assumed from and ceded to other insurance companies under various reinsurance agreements. The ceded reinsurance agreements provide the Company with increased capacity to write larger risks and maintain its exposure to loss within its capital resources.

The Company has a ceded reinsurance agreement with Columbus Life. Under the reinsurance agreement, Columbus Life reinsures the former liabilities of Columbus Mutual, a former affiliate, which was merged into the Company. Life and accident and health reserves ceded from the Company to Columbus Life totaled \$378.3 million and \$399.7 million at December 31, 2025 and 2024, respectively.

In 2006, the Company entered into a yearly renewable term reinsurance agreement with Lafayette Life whereby the Company provides reinsurance coverage on certain life products and associated riders as this coverage is recaptured by Lafayette Life from unaffiliated reinsurers. Life reserves ceded from Lafayette Life to the Company under this agreement totaled \$0.7 million and \$0.7 million at December 31, 2025 and 2024, respectively.

Certain premiums and benefits are ceded to other unaffiliated insurance companies under various reinsurance agreements. The majority of the ceded business is due to ceding substandard business to reinsurers (facultative basis).

The Western and Southern Life Insurance Company

Notes to Financial Statements (Statutory-Basis)

December 31, 2025, 2024 and 2023

The effects of reinsurance on premiums, annuity considerations and deposit-type funds are as follows for the years ended December 31:

	2025	2024	2023
	<i>(In Thousands)</i>		
Direct premiums	\$ 205,311	\$ 205,460	\$ 218,455
Assumed premiums:			
Affiliates	1,166	1,129	1,074
Nonaffiliates	—	—	—
Ceded premiums:			
Affiliates	—	—	—
Nonaffiliates	(7,657)	(7,291)	(7,043)
Net premiums	\$ 198,820	\$ 199,298	\$ 212,486

The Company's ceded reinsurance arrangements impacted certain other items in the accompanying financial statements by the following amounts as of and for the years ended December 31:

	2025	2024	2023
	<i>(In Thousands)</i>		
Policy and contract claims:			
Affiliates	\$ —	\$ —	\$ —
Nonaffiliates	4,804	3,814	3,846
Policy and contract liabilities:			
Affiliates	378,299	399,724	421,470
Nonaffiliates	35,615	34,169	33,465
Amounts recoverable on reinsurance contracts:			
Affiliates	—	—	—
Nonaffiliates	326	544	118

In 2025, 2024 and 2023, the Company did not commute any ceded reinsurance nor did it enter into or engage in any agreement that reinsures policies or contracts that were in-force or had existing reserves as of the effective date of such agreements.

At December 31, 2025, the Company has no significant reserves ceded to unauthorized reinsurers. Amounts payable or recoverable for reinsurance on policy and contract liabilities are not subject to periodic or maximum limits.

Neither the Company nor any of its related parties, control directly or indirectly, any reinsurers with whom the Company conducts business. No policies issued by the Company have been reinsured with a foreign company, which is controlled, either directly or indirectly, by a party not primarily engaged in the business of insurance. The Company does not have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel the agreement. At December 31, 2025, there are no reinsurance

The Western and Southern Life Insurance Company

Notes to Financial Statements (Statutory-Basis)
December 31, 2025, 2024 and 2023

agreements in effect such that the amount of losses paid or accrued exceed the total direct premium collected. The Company remains obligated for amounts ceded in the event that the reinsurers do not meet their obligations.

There would be no reduction in surplus at December 31, 2025, if all reinsurance agreements were cancelled.

6. Federal Income Taxes

The Company and its eligible subsidiaries and affiliates file a consolidated federal income tax return. Amounts due (to)/from the Internal Revenue Service for federal income taxes, net of the amounts due (to)/from subsidiaries and affiliates, were \$109.0 million and \$111.9 million at December 31, 2025 and 2024, respectively.

The components of the net deferred tax asset (liability) at December 31 are as follows:

	12/31/2025 <i>(In Thousands)</i>

At December 31, 2025, the Company had \$0.0 million of net operating loss carryforwards, net capital loss carryforwards and tax credit carry forwards; the Company had \$0.0 million of deferred tax liabilities that are not recognized.

The amount of federal income taxes incurred that will be available for recoupment at December 31, 2025, in the event of future capital losses is \$0.0 million, \$3.9 million, and \$0.0 million from 2025, 2024 and 2023, respectively.

There were no deposits admitted under Section 6603 of the Internal Revenue Service Code as of December 31, 2025 and 2024.

The Company has no unrecognized tax liability as of December 31, 2025 and 2024.

The Company has no tax contingencies for which it is reasonably possible that the total liability will significantly increase within twelve months of the reporting date.

The Company had no accrued interest or penalties related to tax contingencies as of and for the years ended December 31, 2025, 2024 and 2023.

The tax years 2014 through 2017 and 2022 through 2025 remain subject to examination by major tax jurisdictions.

The Inflation Reduction Act was enacted on August 16, 2022, and included a provision for a new Corporate Alternative Minimum Tax (CAMT), effective in 2023, that is based on the adjusted financial statement income set forth on the applicable financial statement of an “applicable corporation.” The controlled group of corporations of which the reporting entity is a member has determined that it is not an “applicable corporation” for purposes of CAMT during the reporting period, and is not liable for the CAMT.

The One Big Beautiful Bill Act (OBBBA) was signed into law on July 4, 2025, which includes changes to the Internal Revenue Code. The OBBBA did not have a significant impact on the Company's financial statements.

7. Capital and Surplus

The Company is required by statutory regulations to meet minimum risk-based capital standards. Risk-based capital is a method of measuring the minimum amount of capital appropriate for an insurance company to support its overall business operations in consideration of its size and risk profile. At December 31, 2025 and 2024, the Company exceeded the minimum risk-based capital.

Ohio insurance law limits the amount of dividends that can be paid to a parent in a holding company structure without prior approval of the regulators to the greater of 10% of statutory surplus or statutory net income as of the preceding December 31 less any dividends paid in the preceding 12 months, but only to the extent of earned surplus as of the preceding December 31. Based on these limitations, the Company is able to pay dividends of up to \$770.1 million by the end of 2026 without seeking prior regulatory approval based on capital and surplus of \$7,700.5 million at December 31, 2025.

The Company currently has the following outstanding surplus notes:

The Western and Southern Life Insurance Company

Notes to Financial Statements (Statutory-Basis)
December 31, 2025, 2024 and 2023

	2025	2024
	<i>(In Thousands)</i>	
2019 Notes, 5.15% interest rate, due 2049	\$ 498,032	\$ 497,946
2021 Notes, 3.75% interest rate, due 2061	497,901	497,842
Total carrying value of surplus notes	\$ 995,933	\$ 995,788

On January 23, 2019, the Company issued \$500.0 million in surplus notes (the “2019 Notes”) due January 15, 2049, at a discount of \$2.6 million. The entire balance was received in cash, none of which came from related parties. Interest on the 2019 Notes is fixed at 5.15% and payable semiannually on January 15 and July 15 of each year. The 2019 Notes are administered by The Bank of New York Mellon. Subject to the approval of the Ohio Director of Insurance (the “Director”), the Company has the option to redeem the 2019 Notes (i) in whole within 90 days after the occurrence of a “Tax Event” where the Company receives an opinion of tax counsel that there is a more than insubstantial risk that interest payable on the 2019 Notes is not deductible by the Company, at a redemption price equal to the principal amount of the 2019 Notes to be redeemed (the “Par Value Redemption Price”), (ii) in whole or in part, on or after January 23, 2024 but prior to July 15, 2048, at a redemption price equal to the greater of (a) the Par Value Redemption Price or (b) the sum of the present value of the remaining scheduled principal and interest payments on the 2019 Notes from the redemption date to July 15, 2048, discounted to the redemption date on a semi-annual basis at an adjusted treasury rate plus 35 basis points or (iii) in whole or in part, on or after July 15, 2048, at the Par Value Redemption Price, plus, in each case of (i), (ii) and (iii), accrued and unpaid interest payments on the 2019 Notes to be redeemed to the redemption date.

On April 28, 2021, the Company issued \$500.0 million in surplus notes (the “2021 Notes”) due April 28, 2061 at a discount of \$2.4 million. The entire balance was received in cash, none of which came from related parties. Interest on the 2021 Notes is fixed at 3.75% and payable semiannually on April 28 and October 28 of each year. The 2021 Notes are administered by The Bank of New York Mellon. Subject to the approval of the Director, the Company has the option to redeem the 2021 Notes (i) in whole within 90 days after the occurrence of a “Tax Event” where the Company receives an opinion of tax counsel that there is a more than insubstantial risk that interest payable on the 2021 Notes is not deductible by the Company, at a redemption price equal to the principal amount of the 2021 Notes to be redeemed (the “Par Value Redemption Price”), (ii) in whole or in part, prior to October 28, 2060, at a redemption price equal to the greater of (a) the Par Value Redemption Price or (b) the sum of the present value of the remaining scheduled principal and interest payments on the 2021 Notes from the redemption date to October 28, 2060, discounted to the redemption date on a semi-annual basis at an adjusted treasury rate plus 25 basis points or (iii) in whole or in part, on or after October 28, 2060, at the Par Value Redemption Price, plus, in each case of (i), (ii) and (iii), accrued and unpaid interest payments on the 2021 Notes to be redeemed to the redemption date.

The 2019 Notes and 2021 Notes (collectively the “Notes”) do not have payments that are contractually linked nor are any of the payments subject to administrative offsetting provisions. Additionally, proceeds from the Notes were not used to purchase an asset directly from the holders. The Notes were issued pursuant to Rule 144A as defined by the Securities Act of 1933. The Notes are unsecured and subordinated to all present and future indebtedness, policy claims and “prior claims” (those claims referred to in classes 1 through 7 of Section 3903.42 of the Ohio Revised Code) against the Company. Under Ohio insurance laws, the Notes are not part of the legal liabilities of the Company. Each payment of principal of, interest on or redemption price with respect to the Notes, may be made only with the prior approval of the Director, and only out of surplus earnings.

Interest expense of \$44.5 million and \$44.5 million was recognized from the Notes in 2025 and 2024, respectively. Life-to-date interest expense recognized December 31, 2025, was \$264.1 million. There has been no principal paid as of December 31, 2025. As of December 31, 2025, there was unapproved interest of \$3.2 million related to 2025 that will come due in 2026. In the event the Company was subject to a liquidation event, the Notes would have preference over the common shareholders. No affiliates of the Company hold any of the Notes. As of the closing, Guggenheim Partners was the only holder of more than 10% of the outstanding Notes on record at the Depository Trust Company.

8. Commitments and Contingencies

The Company is named as a defendant in various legal actions arising principally from claims made under insurance policies and contracts. The Company believes the resolution of these actions will not have a material effect on the Company’s financial position or results of operations.

At December 31, 2025, the Company does not have any material lease agreements as a lessee for office space or equipment.

At December 31, 2025, the Company has future commitments to provide additional capital contributions of \$474.5 million to investments in joint ventures, limited partnerships and limited liability companies.

The Company guarantees the payment of all policyholder obligations of each of the following wholly-owned subsidiaries: WSLAC, Columbus Life and Integrity. In addition, the Company guarantees all policyholder obligations of National and Lafayette Life, an affiliated entity which is wholly-owned by WSFG. Guarantees on behalf of wholly-owned subsidiaries or on behalf of related parties that are considered to be unlimited (as in the case of the guarantee on behalf of Lafayette Life) are exempt from the initial liability recognition criteria and therefore no liability has been recognized in the financial statements. Due to the unlimited nature of the guarantees, the Company is unable to estimate the maximum potential amount of future payments under the guarantees. In the unlikely event the guarantees would be triggered, the Company may be permitted to take control of the underlying assets to recover all or a portion of the amounts paid under the guarantees.

The Western and Southern Life Insurance Company

Notes to Financial Statements (Statutory-Basis)

Net group annuity reserves	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 1,310,659</u>	<u>\$ 1,310,659</u>	
Deposit-type contracts (no life contingencies)	General Account	Separate Account With Guarantees	Separate Account Non- guaranteed	Total	Percent
	<i>(In Thousands)</i>				
Subject to discretionary withdrawal at book value without adjustment (minimal or no charge or adjustment)	\$ 172,633	\$ —	\$ —	\$ 172,633	98.5 %
Not subject to discretionary withdrawal	2,715	—	—	2,715	1.5
Total deposit-type contract liability (before reinsurance)	175,348	—	—	175,348	<u>100.0 %</u>
Reinsurance ceded	17,868	—	—	17,868	
Total deposit-type contract liability	<u>\$ 157,480</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 157,480</u>	

Interest rate changes may have temporary effects on the sale and profitability of annuity products offered by the Company. Although the rates offered by the Company are adjustable in the long-term, in the short-term they may be subject to contractual and competitive restrictions, which may prevent timely

The Western and Southern Life Insurance Company

Notes to Financial Statements (Statutory-Basis)
December 31, 2025, 2024 and 2023

adjustment. The Company's management constantly monitors interest rates with respect to a spectrum of product durations and sells annuities that permit flexible responses to interest rate changes as part of the Company's management of interest spreads. However, adverse changes in investment yields on invested assets will affect the earnings on those products with a guaranteed return.

At December 31, 2025, the Company's general and separate account life insurance account values, cash value, and reserves for policies subject to discretionary withdrawal, not subject to discretionary withdrawal, or with no cash value are summarized as follows:

	General Account			Separate Account - Guaranteed and Nonguaranteed		
	Account Value	Cash Value	Reserve	Account Value	Cash Value	Reserve

10. Employee Retirement Benefits

The Company has a noncontributory pension plan under a deposit administration group annuity contract covering substantially all employees and field representatives that meet eligibility requirements while working for the Company and attaining normal retirement age. In addition, the Company provides certain health care and life insurance benefits for certain retired employees or their beneficiaries. Substantially all of the Company's employees and field representatives may become eligible for those benefits when they reach normal retirement age while working for the Company.

The Company uses a December 31 measurement date for all plans.

A summary of assets, obligations and assumptions of the pension and other postretirement benefit plans at December 31, are as follows:

	Pension Benefits		Postretirement Medical	
	2025	2024	2025	2024
	<i>(In Thousands)</i>

Net gain and loss arising during the period	(33,999)	(119,468)	(1,812)	(12,495)
Net gain and loss recognized	—	—	4,522	13,195
Items not yet recognized as a component of net periodic cost - current year	\$ (52,552)	\$ (18,022)	\$ (59,183)	\$ (61,893)

Assumptions used to determine net periodic benefit cost for the year ended December 31:

	Pension Benefits		Postretirement Medical	
	2025	2024	2025	2024
Discount rate	5.73%	5.13%	5.62%	5.07%
Rate of compensation increase	4.60%	4.60%	N/A	N/A
Expected long-term rate of return on plan assets	7.50%	7.50%	N/A	N/A

Assumptions used to determine the benefit obligation at December 31:

	Pension Benefits		Postretirement Medical	
	2025	2024	2025	2024
Discount rate	5.64%	5.72%	5.39%	5.62%
Rate of compensation increase	4.60%	4.60%	N/A	N/A

The Company's non-admitted pension asset was \$432.0 million and \$373.9 million at December 31, 2025 and 2024, respectively.

The Company utilizes a full yield curve approach in the estimation of liabilities, service cost, and interest cost for pension and postretirement benefits by applying the specific spot rates along the yield curve used in the determination of the benefit obligation to the relevant projected cash flows. The yield curve utilized in the cash flow analysis is comprised of highly rated (Aaa or Aa) corporate bonds. The discount rate was decreased from 5.72% at December 31, 2024, to 5.64% at December 31, 2025. This resulted in a \$12.7 million increase in the pension benefit obligation in 2025. The discount rate was increased from 5.13% at

The Western and Southern Life Insurance Company

Notes to Financial Statements (Statutory-Basis)
December 31, 2025, 2024 and 2023

December 31, 2023, to 5.72% at December 31, 2024. This resulted in a \$57.1 million decrease in the pension benefit obligation in 2024.

The Company’s mortality assumption for plan participants, including future mortality improvements, is generally derived from tables published by the Society of Actuaries (SOA). As of December 31, 2025, the mortality assumptions for active and retired participants were updated to the SOA white collar tables. The change to the mortality assumption resulted in a \$21.7 million increase in the pension benefit obligation in 2025.

The Company employs a prospective building block approach in determining the long-term expected rate of return for plan assets. Historical returns are determined by asset class. The historical relationships between equities, fixed income securities, and other assets are reviewed. The Company applies long-term asset return estimates to the plan’s target asset allocation to determine the weighted-average long-term return. The Company’s long-term asset allocation was determined through modeling long-term returns and asset return volatilities and is guided by an investment policy statement created for the plan.

The asset allocation for the defined benefit pension plan at the end of 2025 and 2024, and the target allocation for 2025 by asset category, are as follows:

	Target Allocation Percentage	Percentage of Plan Assets	
	2025	2025	2024
Asset category:			
Equity securities	60 %	65 %	65 %
Fixed income securities	13	16	16
Short-term investments	2	—	—
Other	25	19	19
Total	100 %	100 %	100 %

The plan employs a total return investment approach whereby a mix of fixed income and equity investments are used to maximize the long-term return of plan assets for a prudent level of risk. Risk tolerance is established through careful consideration of plan liabilities, plan funded status, and corporate financial condition. The total portfolio is structured with multiple sub-portfolios, each with a specific fixed income or equity asset management discipline. Each sub-portfolio is subject to individual limitations and performance benchmarks as well as limitations at the consolidated portfolio level. Quarterly asset allocation meetings are held to evaluate portfolio asset allocations and to establish the optimal mix of assets given current market conditions and risk tolerance. Investment mix is measured and monitored on an ongoing basis through regular investment reviews, annual liability measurements, and periodic asset/liability studies.

The Company’s pension plan assets consist primarily of debt and equity securities, mutual funds and private equity funds, all of which are carried at fair value.

Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date (an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three levels.

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities. The Company's Level 1 assets primarily include exchange-traded equity securities and mutual funds.
- Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. The Company's Level 2 assets include certain debt securities for which public price quotations are not available, but that use other market observable inputs from third-party pricing service quotes or internal valuation models using observable inputs. Level 2 assets also include private funds that invest primarily in domestic debt securities where the Company has the right to redeem its interest at net asset values. The underlying debt securities within these funds employ similar valuation methodologies as the Company's other investments in debt securities.
- Level 3 - Significant unobservable inputs for the asset or liability. The Company's Level 3 assets primarily include private real estate funds.

Debt Securities

The fair values of actively traded debt securities have been determined through the use of third-party pricing services utilizing market observable inputs.

Equity Securities

The fair values of actively traded equity securities have been determined utilizing publicly quoted prices from third-party pricing services.

Mutual Funds

The fair values of mutual funds have been determined utilizing the net asset values of the funds.

Private Equity and Fixed Income Funds

The fair values of private equity and fixed income funds have been determined utilizing the net asset values of the funds. The fair values of the private real estate funds have been determined by utilizing significant unobservable inputs.

Other Assets

Other assets primarily include securities lending reinvested collateral and cash equivalents. The fair value of securities lending reinvested collateral assets are from third-party sources utilizing publicly quoted prices. The fair value of the cash equivalents are based on quoted market prices.

For measurement purposes of the postretirement benefit obligation at December 31, 2025, a 5.275% annual rate of increase in the per capita cost of covered health care benefits is assumed for 2026. The rate was assumed to decrease gradually to 4.75% for 2033 and remain at that level thereafter.

At December 31, 2025, the assets of the Company's pension include approximately \$51.7 million invested in the Touchstone Family of Funds, which are administered by the Company, and \$221.6 million invested in private equity and fixed income funds managed by Fort Washington Investment Advisors, Inc. At December 31, 2024, the assets of the Company's pension include approximately \$97.4 million invested in the Touchstone Family of Funds, which are administered by the Company, \$205.2 million invested in private equity and fixed income funds managed by Fort Washington Investment Advisors, Inc.

The Western and Southern Life Insurance Company

Notes to Financial Statements (Statutory-Basis)
December 31, 2025, 2024 and 2023

As of December 31, 2025, future benefit payments for the pension plan are expected as follows (in millions):

2026	\$	55.2
2027		56.3
2028		57.4
2029		58.4
2030		59.4
Five years thereafter		310.1

Future benefit payments for the postretirement medical plan, net of amounts contributed by plan participants, are expected as follows (in millions):

2026	\$	6.8
2027		6.5
2028		6.2
2029		6.1
2030		6.0
Five years thereafter		27.1

The Company did not make any contributions to the pension plan in 2025 and 2024. The Company does not expect to make contributions to the pension plan during 2026.

The Company made contributions to the postretirement medical plan of \$5.7 million in 2025 and expects to contribute \$58.7 million between 2026 and 2035, inclusive. The Company received no subsidies in 2025. The Company's postretirement medical plan did not collect the Medicare Part D Subsidy for claims activity occurring after January 1, 2013.

The Company sponsors a contributory employee retirement savings plan covering substantially all eligible, full-time employees. This plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company's contributions to the plan are based on a combination of the employee's contributions to the plan and a percentage of the employee's earnings for the year. The total of the Company's contributions to the defined contribution plan were \$6.3 million, \$5.9 million, and \$5.7 million for 2025, 2024 and 2023, respectively.

11. Premium and Annuity Considerations Deferred and Uncollected

Deferred and uncollected life insurance premiums and annuity considerations at December 31, 2025, were as follows:

	Gross	Net of Loading
	<i>(In Thousands)</i>	
Ordinary new business	\$ 3,088	\$ 253
Ordinary renewal	60,881	44,573
Accident and health renewal	307	269
Assumed investment type-contracts	457	457
Total	<u>\$ 64,733</u>	<u>\$ 45,552</u>
